

My Best Friend,

I spend days laughing and smiling next to you

I spend all of my time away thinking about you

When we walk, I smile, hoping for this to never end

When you're scared, I hold you close, soothing you, keeping you safe

When we get your haircut and you're scared, I talk to you, distract you until it's all done

When you're too excited to handle, we go to the park and run around, throwing a ball around

When I look at you, all I see is my best friend

Even if you're my furry friend I still

Enjoy it, Enjoy life, Love you
