

# Friendship

**F**orever together when life turns to custard  
Whatever the problem, it cuts the mustard

**R**oad trips together, squashed in a car  
Weekend retreats, can be near, can be far

**I**nfinite wisdom when the baby is crying  
A phone call away when the teenager's caught lying

**E**ntertainment events, into town on the train  
Going together come sun, wind or rain

**N**eeding a hot drink when the power goes out?  
A thermos tuns up, cheese scones are my shout

**D**amn, car keys are missing, it's a work day, oh dear!  
A phone call for help, the friend taxi is here

**S**ailing and cruising, a breakfast sea view  
Away from the life crap, just me and you

**H**ardship's a toughship, but there to the end  
Those hot drinks are lifesavers, thank you my friend

**I**nspiring thoughts, Monday night jokes  
Crochet and quilting with like minded folks

**P**lotting fun, drinking tea, riding the lifeship  
Hard times and good times they're all part of the friendship.
